Put essential information and capabilities at your fingertips. Fast.

**INTEGRATED SOFTWARE & HARDWARE****HIGH-SPEED CoBRA 4.4**

CoBRA Software is a Decision Support Tool for the full spectrum of CBRNE incident management.

CoBRA Software supports National Standards such as NIMS and ICS to quickly establish an incident command structure and is easily customized to include your own local procedures, resources and checklists.

CoBRA software enhances the Military and Civilian First Responder's ability to identify hazards, isolate the area, follow the best procedure and organize additional resources.
