

CoBRA SOFTWARE PRELOADED ON HARDWARE **CoBRA COMMAND POST**

WITH NEW  **4.4 HIGH SPEED SOFTWARE**

SAVE TIME YOU NEED AS A FIRST RESPONDER ON SCENE or at the EOC, with a powerful system that provides up to the minute information on the status of the incident and keeps up with your rugged demands. The CoBRA Command Post combines a high power Rugged computer with CoBRA Software to put essential information and capabilities at your fingertips. Fast.

INTEGRATED SOFTWARE & HARDWARE

HIGH-SPEED CoBRA 4.4

CoBRA Software is a Decision Support Tool for the full spectrum of CBRNE incident management.

CoBRA Software supports National Standards such as NIMS and ICS to quickly establish an incident command structure and is easily customized to include your own local procedures, resources and checklists.

CoBRA software enhances the Military and Civilian First Responder's ability to identify hazards, isolate the area, follow the best procedure and organize additional resources.

CoBRA COMMAND POST

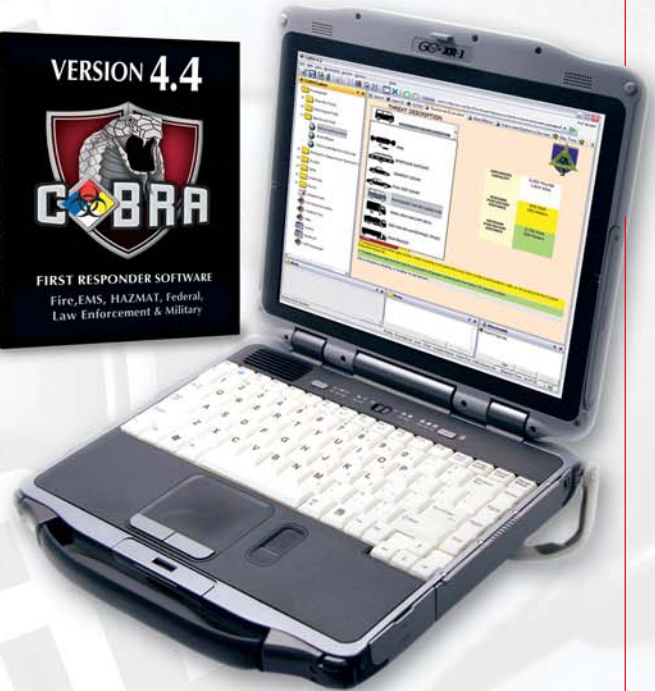

- Set up a fast and mobile command center in a vehicle or structure
