BUILT FOR **COBRA** 4.4 SOFTWARE EXPANSION

EXTEND THE POWER OF COBRA 4.4 SOFTWARE WITH COBRA ADD-ONS that are designed to enhance the capabilities of First Responders who require specialized information resources, management and technical calculations in the areas of GIS and plume plotting, improvised explosive devices and Medical procedures in catastrophe situations. Add-Ons are pre-loaded or added to CoBRA 4.4 separately.

SOFTWARE ADD-ONS FOR CoBRA 4.4

HIGH-SPEED CoBRA 4.4

CoBRA Software is a Decision Support Tool for the full spectrum of CBRNE incident management.

CoBRA Software supports National Standards such as NIMS and ICS to quickly establish an incident command structure and is easily customized to include your own local procedures, resources and checklists.

CoBRA software enhances the Military and Civilian First Responder's ability to identify hazards, isolate the area, follow the best procedure and organize additional resources.
